

7 mocnych punktów: czyli solidna gra w wykonaniu silnych graczy – czy ty też potrafisz stosować te same reguły oceny pozycji?

Ostatnio obserwuję wypowiedzi silniejszych graczy (poziom 1900-2200) i (na podstawie komentarzy) staram się podglądać ich sposób myślenia, oceny pozycji, planowania i liczenia wariantów. Na tej podstawie uznałem, że warto zwrócić uwagę na to w jaki sposób oceniają pozycję. Poniższa lista zawiera pytania z uwzględnieniem ważności danego pytania. Zaznaczam, że najczęściej w takiej samej kolejności przechodzą one przez filtr oceny pozycji przez mocnych graczy. Niekiedy oczywiście od razu „przeskakują” oni do dalszego pytania – zwłaszcza jeśli widzą, że odpowiedzi na poprzednie nie są istotne dla obecnej pozycji.

Oto *siedem najbardziej istotnych punktów (pytań),
które pojawiają się w głowie silnych zawodników:*

1. Czy ruch jest czysty? Jeśli jest to podstawienie materiału, wówczas zwykle komentarz opiera się na krótkim stwierdzeniu: ten ruch traci X, Y, Z, gdzie za literę można sobie wstawić skrót od H, W, G, S czy piona. To kluczowy element po którym gra się kończy. Silniejsi zawodnicy niejako „z marszu” (od ręki) widzą jeśli coś zostało podstawione - zwłaszcza jeśli jest to 2-3 ruchowa (forsowna) operacja taktyczna. Bez czystej gry nie ma co marzyć o solidnym poziomie - jest to aktualne zwłaszcza obecnie: posiadamy odpowiednie narzędzia i tysiące analiz dotyczących taktyki, kombinacji oraz zadań do rozwiązywania. Dodam jedynie, że w obecnej chwili można bez problemu kupić książki (głównie w jęz. angielskim i rosyjskim) w których znajdziemy od 20 do 30.000 zadań do rozwiązania. Nie trzeba dodawać, że jest to wystarczająca ilość, aby się nie nudzić przez co najmniej kilka dobrych lat (zakładając codzienne rozwiązywanie po 30-45 minut).

2. Czy ruch pasuje do wymogów pozycji - czy jest zgodny z jej istotą (tzw. duchem pozycji). Skąd silniejsi gracze wiedzą o tym czy dane zagranie „pasuje” czy nie? Otóż dzięki setkom schematów oraz tysiącom rozegranych i przeanalizowanych partii (mistrzów i swoich) rozumieją i pamiętają jakiego typu ruchy są w danej pozycji najlepsze czy też konieczne. Jest to bardzo ważny element - silniejsi gracze często pytają: jakie zadanie (cel) ma ten ruch? Przed czym powstrzymuje przeciwnika lub też czym grozi? Jeśli ruch nie pasuje do żadnej z 2 kategorii, wówczas pojawia się komentarz: „stracony ruch”.

3. Czy można kolejnym ruchem zagrozić danemu (istotnemu) punktowi na szachownicy? Zwykle silni gracze „czepiają” się tak zwanych słabości. Jeśli widzą, że król jest słabo broniony, to pytają w jaki sposób mogą to wykorzystać. Rzecz jasna wszelkie słabości, które rzucają się w oczy są dla takich zawodników od razu zauważane. Wraz z pytaniem co grozi od razu zwykle pojawia się następne pytanie, którym próbują „zahamować” groźbę. Przykładowo: grozi Gxc3 z następnym Hxh7+ i Wh1 z matem. Jest obrona w postaci X lub Y.

4. Czy figury są aktywne i czy jest rekompensata jeśli jest strata materialna lub pasywnie stojące figury. Bardzo często silni gracze natychmiast wyłapują źle stojące i „nic nie robiące” figury. Natomiast przy stracie materialnej pytają jak można (szybko) przestawić w taki sposób figury, aby mogły być aktywne i tworzyć groźby. W przypadku nieco większej (decydującej) przewagi i braku rekompensaty pojawia się jedyny komentarz: „pozycja jest przegrana” albo „brak jest rekompensaty i/lub kontry”.

5. Czy możliwe jest przeprowadzenie planu zgodnego z optymalnym ustawieniem figur i maksymalnym wykorzystaniem ich potencjału? W tym wypadku silni gracze dostrzegają kluczowe aspekty pozycji i natychmiast mówią: „teraz trzeba szybko otworzyć linię i następnie atakować po niej punkty X, Y, Z” albo „białe blokują piona i następnie zdwajają ciężkie figury lub zajmują linię X, Y, Z”.

6. Czy dana pozycja po wymianie będzie dla mnie lepsza czy nie? Jeśli nie widać korzyści, wówczas czekamy na inną możliwość - nie wymieniamy nawet jednego piona! Bardzo istotne w przypadku silnych graczy jest to, że nie wykonują oni ruchów, które upraszczają pozycję - tak długo jak nie są do tego zmuszeni (brak wymiany spowoduje stratę) lub dopóki nie widzą istotnych korzyści z przeprowadzenia wymiany. Warto pamiętać, że utrzymywanie napięcia daje większe szanse na zrobienie błędu - przy okazji trzeba także stale zwracać uwagę na to co się stanie w przypadku serii wymian. Szalenie ważne jest to, że dla silnego gracza wymiana, która nie daje przewagi jest błędem! Tak, raz jeszcze powtórzę - KAŻDA wymiana, która nie daje korzyści jest błędem! Sprawia bowiem, że szanse na wygraną (na wymuszenie błędu) są coraz mniejsze. Są pozycje przy małej ilości bierek, które bez problemu zremisują średniej klasy zawodnicy nawet z mistrzem.

7. Czy dana pozycja wymaga ataku czy obrony? Jeśli trzeba się bronić to w jaki sposób przegrupować siły? Gdzie ustawić skoczka, w którym miejscu ma stać wieża, a jakie pozycje mają zająć piony? Bardzo często silni zawodnicy pytają: czy można wymusić przejście do remisowej końcówki w której przewaga materialna nie będzie decydująca? Z kolei jeśli atakują to zadają sobie pytania: jak sprawić, aby przeciwnik nie mógł skutecznie odeprzeć ataku? Jak realizować przewagę, aby nie było konieczne dopuszczenie niebezpiecznej kontry? Która ze słabości będzie najłatwiejsza do wykorzystania?

Powyżej podane zostały ogólne wskazówki do tego, aby zrozumieć w jaki sposób podchodzi do partii silny gracz. Jego ocena pozycji, wyszukiwanie ruchów oraz planowanie i liczenie wariantów opierają się na pewnym systemie, który stale poddawany jest ulepszeniom. Niektóre typu pozycji silniejsi zawodnicy potrafią bezbłędnie ocenić i rozegrać - bez względu czy będąc stroną atakującą czy broniącą się. Nie zapominajmy jednak, że zwykle za dużą siłą i zrozumieniem gry stoją setki godzin ćwiczeń, tysiące rozegranych partii oraz setki rozwiązanych zadań i przeanalizowanych partii (pozycji). Bardzo rzadko się zdarza znaleźć gracza, który jedynie za pomocą bardzo dobrej pamięci jest w stanie grać solidnie: zwykle przy różnych przeciwnikach (stylach oraz sile gry) szybko wychodzi to, kto potrafi grać a kto jedynie odtwarzać i przesuwać drewniane figurki.

Poniżej prezentuję przykładowy komentarze do jednej z partii dwóch amatorów – po angielsku. Warto zwrócić uwagę na to jak bardzo pasuje powyższy schemat do silnych zawodników oraz jak słabsi zawodnicy pomijają istotne elementy (czy też zupełnie chaotycznie liczą warianty, popełniając błędy). W nawiasach podane obecne rankingi graczy. Zaznaczone na niebiesko (i podkreślone) są aktualne ruchy w partii. Po nich w nawiasie podany jest zużyty czas na każdy z nich.

wmahan(2019) whispers: ok unlike my usual 150 attack my bishop is on e2

Suiseiseki(2003) whispers: d5 i say

superlaser(1808) whispers: i LOVE yugoslav attack for white

milpat(1930) whispers: the art of the precise d5 push

wmahan(2019) whispers: but against somebody with not much

experience in the dragon, I think I should be ok

superlaser(1808) whispers: yeah

Suiseiseki(2003) whispers: this be2 thingy is weird

milpat(1930) whispers: seems i will never master it :(

Suiseiseki(2003) whispers: to take out of book i guess

superlaser(1808) whispers: nah Be2 ok can prepare g4 push better than Bc4

superlaser(1808) whispers: just Bc4 looks better :P

Suiseiseki(2003) whispers: well yes :p

Suiseiseki(2003) whispers: Bc4 is certainly more critical

JoshuaR(1791) whispers: i was going to ask. i generally play Be2 in more of the f4 types 9...**Nxd4** (2:01)

Suiseiseki(2003) whispers: umm :p

JoshuaR(1791) whispers: well still blitz mode from NT. all part of his plan

Suiseiseki(2003) whispers: i've played dragon for a while

superlaser(1808) whispers: yah same

superlaser(1808) whispers: never played this though

JoshuaR(1791) whispers: i don't think i've ever played black dragon in a long game... lol

Suiseiseki(2003) whispers: sometimes it's a good idea to allow white to play Nxe6

superlaser(1808) whispers: Nxd4 certainly unusual

wmahan(2019) whispers: O-O-O Qa5 Kb1 Rac8 Nd5!?

superlaser(1808) whispers: ah well, gl both

Funkmaus(2272) whispers: white can go 0-0 still

Suiseiseki(2003) whispers: he almost certainly doesn't want to play O-O :p

JoshuaR(1791) whispers: not if he plays g4. push those pawns!

Funkmaus(2272) whispers: No, he wont - will be an entertaining show 11.**O-O-O** (2:28)

Suiseiseki(2003) whispers: hehe :p 11...**Oa5** (0:45) 12.**Kb1** (0:06)

MlodyBog(2127) whispers: go wmahan

Suiseiseki(2003) whispers: hah :p

Funkmaus(2272) whispers: wow - you cheer for him?

milpat(1930) whispers: i thought NT was ur friend mlody

Funkmaus(2272) whispers: exactly

MlodyBog(2127) whispers: nokia

Suiseiseki(2003) whispers: that may be the reason :p

MlodyBog(2127) whispers: its patzer :)

milpat(1930) whispers: hehe

Twikki(2067) whispers: why's he playing a slow line against the dragon?

Funkmaus(2272) whispers: fast line if black doesnt go Nxd4 - but im not sure

JoshuaR(1791) whispers: oh, this isn't normal?

wmahan(2019) whispers: Rfc8 Nd5 Qxd2 Nxf6 Bxf6 Rxd2 Bxd4 Rxd4 trades everything

Twikki(2067) whispers: Be2 + f3 is weird

Suiseiseki(2003) whispers: i wouldn't call this "slow" :p

Suiseiseki(2003) whispers: but certainly a bit unusual

Funkmaus(2272) whispers: to me they all are similar, and the line Wil posted looks good

MlodyBog(2127) whispers: Qxd2 Nxe7?+

milpat(1930) whispers: yes

Suiseiseki(2003) whispers: that's why Rfc8.. :p

Twikki(2067) whispers: b5 makes some sense here

Funkmaus(2272) whispers: b5 is free pawn :))

Twikki(2067) whispers: no it isnt :P

Suiseiseki(2003) whispers: always dangerous to accept

Suiseiseki(2003) whispers: i wouldn't :p

Funkmaus(2272) whispers: i would - first take and suffer for - all kingdom for free material

Twikki(2067) whispers: xb5 Bxa2 gets it back immediately

milpat(1930) whispers: take b5 open file to ur K Jen :P

Suiseiseki(2003) whispers: umm that's better :p

Funkmaus(2272) whispers: ah if Bxa2 then i wont take it. i thought about slow attack in the b-file, then i would ;)

Suiseiseki(2003) whispers: but even without xa2 black should be good 12...**Rfc8** (4:29)

milpat(1930) whispers: this prevents Nd5/xe7+ tricks

Suiseiseki(2003) whispers: does w want to trade everything? :p
milpat(1930) whispers: Rxc3 is a threat now?
MlodyBog(2127) whispers: Rxc3 Qxc3
milpat(1930) whispers: Qxa2+
Suiseiseki(2003) whispers: it's entertaining though
wmahan(2019) whispers: g3 vs Nd5
Suiseiseki(2003) whispers: no mate
Ismirdochegal(2137) whispers: white cant play bxf6 here
milpat(1930) whispers: no mate, simply unpleasant
Suiseiseki(2003) whispers: shouldn't have that much trouble holding
:<
Ismirdochegal(2137) whispers: nd5 and a3 are playable
Funkmaus(2272) whispers: still book, Chriss
Suiseiseki(2003) whispers: oh wait..
Funkmaus(2272) whispers: *Chris?
Ismirdochegal(2137) whispers: well, not exactly
Suiseiseki(2003) whispers: g4 Rxc3 Qxc3 Qxa2 Kc1 Bh6
Ismirdochegal(2137) whispers: be2 is not book, as its somewhat
useless
Suiseiseki(2003) whispers: that's annoying
Suiseiseki(2003) whispers: ..Be3 Rc8
Ismirdochegal(2137) whispers: i know this line such taht white can
play bxf6 bxf6 nd5 qxd2 nxf6+
Ismirdochegal(2137) whispers: but its with a3 instead of be2
Twikki(2067) whispers: oh, nm b5 Nd5 was good for white
Ismirdochegal(2137) whispers: i guess i would play a3 still, as white
Funkmaus(2272) whispers: +1
Twikki(2067) whispers: whereas Nd5 here is just boring and very
slightly better for black
tjradd(2101) whispers: looks like a dragon where white is wasting
time
milpat(1930) whispers: no time can be wasted in dragon
Suiseiseki(2003) whispers: i guess i take back my comment, Be2 is
slow indeed :p
Ismirdochegal(2137) whispers: as i said up to be2 whites line was
fine
Funkmaus(2272) whispers: :(
Ismirdochegal(2137) whispers: its still fine for white
Twikki(2067) whispers: yeah, it's either Be2 or f3... doing both is
kind of pointless
Ismirdochegal(2137) whispers: i personally prefer be2 without f3
wmahan(2019) whispers: sorry meant b3
Funkmaus(2272) whispers: I think Wil too, we ve been talking about
how this bishop sits at home and the pawnstorm attack
milpat(1930) whispers: white had not launch any kside storm yet
wmahan(2019) whispers: b3 Rc7 followed by Rac8 and I might have
to Nd5 anyway
Ismirdochegal(2137) whispers: in this line white does not play for
pawnstorm, but for better structure in the centre
Suiseiseki(2003) whispers: i thought he wanted to avoid prepared
lines
Twikki(2067) whispers: whoa, b3? yikes
Suiseiseki(2003) whispers: he thought a min on Be2
milpat(1930) whispers: b3?
Ismirdochegal(2137) whispers: a3 is fine but b3 is suicide
JoshuaR(1791) whispers: did he plan o-o until g6 then changed mind
to yugoslav-ish-whatever?
Suiseiseki(2003) whispers: b3 never :<
Suiseiseki(2003) whispers: or almost
milpat(1930) whispers: sounds strange
JoshuaR(1791) whispers: or f4 rather than f3?
Funkmaus(2272) whispers: yes Joshua, you got it and now I do too -
he wanted different line and as seen that g6, wanted dragon
Funkmaus(2272) whispers: what a move order can do 13..[Nd5](#)
(10:32)
Suiseiseki(2003) whispers: feels like black prepared this 13..[Qxd2](#)
(0:04)
Ismirdochegal(2137) whispers: now qd2

Twikki(2067) whispers: b3 Bxb3!? ab e5 would have been neat to
watch
Funkmaus(2272) whispers: Now I like it :))
milpat(1930) whispers: maybe black did some homeworks after all,
:P
Funkmaus(2272) whispers: noone is gonna get mated
Suiseiseki(2003) whispers: ahah :p
wmahan(2019) whispers: Rxd2 Nxd5 Bxg2
Funkmaus(2272) whispers: should have done, credit to Nokia
Ismirdochegal(2137) whispers: rd2 bd5 ed is critical, i guess oretty
even
Funkmaus(2272) whispers: maybe best to keep the imbalanced game
milpat(1930) whispers: Nxf6+ not good Ismir?
Ismirdochegal(2137) whispers: i dont think its as good
Ismirdochegal(2137) whispers: structurally speaking
milpat(1930) whispers: ok
Ismirdochegal(2137) whispers: the difference is rather subtle
Twikki(2067) whispers: he can sac the knight for 2 pawns... that must
be good
Twikki(2067) whispers: since he probably picks up the d pawn too, it
might be playable 14..[Rxd2](#) (3:03)
milpat(1930) whispers: Nxe7+ xg6+ u mean?
Twikki(2067) whispers: yeah
Ismirdochegal(2137) whispers: no way 14..[Nxd5](#) (0:20)
JoshuaR(1791) whispers: wow, very long think. unless i've
disconnected
milpat(1930) whispers: i looked at it, seems not great
Ismirdochegal(2137) whispers: that just loses
Ismirdochegal(2137) whispers: ed now
Twikki(2067) whispers: comp preferred it to this line
Suiseiseki(2003) whispers: Bxg7 Nb4 i guess?
milpat(1930) whispers: maybe comp just dont wanna have to argue
with u Twik ;)
wmahan(2019) whispers: Bxg2 Nb4 could be annoying
JoshuaR(1791) whispers: ah, i disconnected and thought he was
taking a very very long time thinking about b3
wmahan(2019) whispers: but so is exd5 Bh6, bah
milpat(1930) whispers: xg7 i assume he meant
Suiseiseki(2003) whispers: heh :p 15..[Bxg7](#) (3:10)
Twikki(2067) whispers: Bh6 wins a pawn for black, must be a solid
plus
Funkmaus(2272) whispers: oh what? how?
JoshuaR(1791) whispers: he saw Nb4...?
Twikki(2067) whispers: in the exd5 line
milpat(1930) whispers: Nb4 Bc3 i presume?
Twikki(2067) whispers: Nb4 wins the a pawn
JoshuaR(1791) whispers: then a2 dies
Funkmaus(2272) whispers: ah.. oh. damn i see it now
milpat(1930) whispers: but how N gets out?
wmahan(2019) whispers: Nb4 g3 Nxc2 Bb2, bishop pair for a pawn
Funkmaus(2272) whispers: yeah, the N gets out
Suiseiseki(2003) whispers: one can only do so much :<
JoshuaR(1791) whispers: g3? b3?
Suiseiseki(2003) whispers: no idea :<
JoshuaR(1791) whispers: kxg7...
Suiseiseki(2003) whispers: no time for b3
milpat(1930) whispers: what g3 is doing in the story?
Suiseiseki(2003) whispers: please don't blunder :s
Twikki(2067) whispers: no bishop pair there... Nc3+ picks off the
other one
milpat(1930) whispers: Nxc3 is the move i missed
Twikki(2067) whispers: Nb4 b3 Kxg7 is rather convincing 15..[Nb4](#)
(3:56)
JoshuaR(1791) whispers: there is no Nxc3+ because N is already on
b4 by that time
Suiseiseki(2003) whispers: i agree
tjradd(2101) whispers: what is a line on a3
JoshuaR(1791) whispers: sometimes i forget when i trade pieces and

do something special that i am down a piece, but that's normally in blitz
Funkmaus(2272) whispers: and to what fails Bd4?
tjradd(2101) whispers: there is also allowing Na2 and then playing c3
Funkmaus(2272) whispers: yep that was my idea
Twikki(2067) whispers: Bd4 Ba2+ Ka1 Rxc2 or Bc1 Bb3
tjradd(2101) whispers: ok but on Bd4 there is Ba2+ and Be6
Suiseiseki(2003) whispers: is he thinking of b3? :s
Twikki(2067) whispers: er, Kc1 Bb3
Suiseiseki(2003) whispers: i'm scared~ D:
Ismirdochehal(2137) whispers: a3
milpat(1930) whispers: a3 Kxg7 axb4? ,mmm, hope there is better than that
Funkmaus(2272) whispers: no, a3 Ba2+ and Nxc2 might work
Funkmaus(2272) whispers: crappy tactics
wmahan(2019) whispers: c3 Bxa2 Ka2 Kxg2 cxb4 Be6 doesn't look good
JoshuaR(1791) whispers: those poor g and h pawns are still on their home row
Twikki(2067) whispers: yeah, since Kxa2 isn't legal...
wmahan(2019) whispers: a3 Nxc2 Bh6 maybe
Suiseiseki(2003) whispers: yah he's not into b3~ :<
JoshuaR(1791) whispers: agh, usually white players don't mix up squares. lol 16.[a3](#) (4:48)
milpat(1930) whispers: i was looking at a3/Bh6
milpat(1930) whispers: not sure i saw better
JoshuaR(1791) whispers: well here is that Ba2+ stuff
milpat(1930) whispers: Ba2 is brave , assuming the N wil have to move
wmahan(2019) whispers: Rxc2 Bh6 is also possible
Suiseiseki(2003) whispers: let's throw a line~
Suiseiseki(2003) whispers: Ba2+ Ka1 Nc2+ Kx
Suiseiseki(2003) whispers: Kxg7
Suiseiseki(2003) whispers: Kb3
JoshuaR(1791) whispers: what happens if Kc1 after Ba2+?
inherently that seems bad, but i dunno. didn't calculate
Suiseiseki(2003) whispers: looks okay
JoshuaR(1791) whispers: i guess just trades and open king is bad
Funkmaus(2272) whispers: also Nxc2 the hanging piece eats a pawn
Suiseiseki(2003) whispers: Kc1 Nxc2 and take g7
Twikki(2067) whispers: Nxc2 seems fine
JoshuaR(1791) whispers: N+R for R+B+P
fredisblogs(1813) whispers: even the simple kxg7
JoshuaR(1791) whispers: so it's bad either way, not as bad on a1
Funkmaus(2272) whispers: no, lsb both alive, white is pawn down
Suiseiseki(2003) whispers: Nxc2 Bh6
Suiseiseki(2003) whispers: maybe
Funkmaus(2272) whispers: No!
Twikki(2067) whispers: yeah, Rxc2
Funkmaus(2272) whispers: there is Ne3+ discovered
Suiseiseki(2003) whispers: i mean, on Nxc2 now :p
Funkmaus(2272) whispers: and it seems to be a mate
Funkmaus(2272) whispers: Ah now Nxc2 ok... i thought Ba2 stuff first, then no
Suiseiseki(2003) whispers: after Ba2 Kc1 Nxc2 that looks disastrous :<
Funkmaus(2272) whispers: Nxc2 Bh6 looks good
wmahan(2019) whispers: I guess Rxd2 was my mistake 16..[Rxc2](#) (4:35)
Suiseiseki(2003) whispers: oohh :p
DodgeBrother(1594) whispers: oh
JoshuaR(1791) whispers: was sure he would play first with Ba2+
Suiseiseki(2003) whispers: this looks excessively fancy
Funkmaus(2272) whispers: even now save tgat B!!
Suiseiseki(2003) whispers: i guess it works though :p
DodgeBrother(1594) whispers: mistake?
milpat(1930) whispers: Bh6?

JoshuaR(1791) whispers: Bc3
Funkmaus(2272) whispers: whatever, next is RxR BxR :p
Twikki(2067) whispers: looks fine to me
Suiseiseki(2003) whispers: and Nc6 :p
JoshuaR(1791) whispers: yeah, either way

Funkmaus(2272) whispers: I dont consider the position lost, or would you resign being pawn down?
milpat(1930) whispers: launch some attack someday. yea suis
Ismirdochehal(2137) whispers: its lost in the long run 19..[f6](#) (0:33)
milpat(1930) whispers: many things can happens in long run Ismir
Suiseiseki(2003) whispers: mate covered :/
Ismirdochehal(2137) whispers: i might resign this position, depending on my opponent
Funkmaus(2272) whispers: would you resign to me? 20.[f4](#) (0:51)
Ismirdochehal(2137) whispers: probably yes
milpat(1930) whispers: mlody told us, nokia is a patzer :D
Funkmaus(2272) whispers: i am honoured - but cant give the favour back - I wont resign it to you
hugozver(1902) whispers: why resign?! Bishops pair should be enough compensation
Ismirdochehal(2137) whispers: this is not blitz where i play on a piece down against you
Funkmaus(2272) whispers: lol dont forget to tell that that game you won at the end
Ismirdochehal(2137) whispers: so playing on was a good decision 20..[d5](#) (1:30)
Funkmaus(2272) whispers: here is so much fight on, and if it comes hard, DSB eats the N, trading rooks and drawish ending
milpat(1930) whispers: cant believe u consider resigning as an option
Funkmaus(2272) whispers: Nokia played great so far - preparation, then own ideas - now comes to the ending, maybe his ending is weak.
If Mlody says he is a patzer, there must be a reason
Twikki(2067) whispers: I'd consider it now
Suiseiseki(2003) whispers: me neither :p
Suiseiseki(2003) whispers: mlody is certainly just kidding :<
Twikki(2067) whispers: d5 was a shot
Suiseiseki(2003) whispers: nokia has at least reasonable endgame technique 21.[exd5](#) (1:14) [Bxd5](#) (0:07) 22.[Rg1](#) (0:02)
milpat(1930) whispers: go Wil!! 22..[Rd8](#) (0:35)
Breloczek(1887) whispers: Nokia will win this
hugozver(1902) whispers: no he won't!
Breloczek(1887) whispers: yes he will
Breloczek(1887) whispers: :> 23.[g4](#) (0:24)
milpat(1930) whispers: nah
hugozver(1902) whispers: wanna bet?
Funkmaus(2272) whispers: he wont!
Suiseiseki(2003) whispers: :o
milpat(1930) whispers: he plays too fast, it smells mistakes ;)
mindlin(2011) whispers: i'm not sure the bishops provide some comp
wmahan(2019) whispers: Nd4 Re1!?
hugozver(1902) whispers: I am sure
Suiseiseki(2003) whispers: it's "some" comp, just not enough :<
milpat(1930) whispers: white wants lsb x N (or Nx lsb)
Twikki(2067) whispers: Be4+ Kc1 Nd4 is nasty
Suiseiseki(2003) whispers: his light bishop also is clearly inferior D:

Funkmaus(2272) whispers: go back and see if he wants a draw
Suiseiseki(2003) whispers: guess it's just a torture repetition :<
hugozver(1902) whispers: Kb1 Be4+, perpetual!
jaberwock(2069) whispers: He probably just wants to gain time on
clock 25. [Kb1](#) (1:13) [Bb3](#) (0:04)
Nemisis(2113) whispers: Why would white try to draw this?!

Suiseiseki(2003) whispers: it's always advantageous to repeat twice
when you have the advantage~ :<
Twikki(2067) whispers: inertia
Suiseiseki(2003) whispers: and can deviate of course :p
Nemisis(2113) whispers: He has a pretty good advantage here.
Nemisis(2113) whispers: Just need some activity.
Funkmaus(2272) whispers: psychologically - yes - checking if opp.
wants a draw. But here is nothing to check: pretty clear that white is
playing against the loss
Nemisis(2113) whispers: Oh white is on a team that is down on
points?
Funkmaus(2272) whispers: No; its the first game - speaking of the
current position 26. [Rg3](#) (2:07) [Bd1](#) (0:06)
Nemisis(2113) whispers: eh. I have seen a lot of games where the
bishop pair is worth two pawns if you have activity.
Suiseiseki(2003) whispers: too blitzed
milpat(1930) whispers: leave back rank is brave
mindlin(2011) whispers: Bc4?
Funkmaus(2272) whispers: impressive speed lol
Nemisis(2113) whispers: And Bd1 was horrid.
Suiseiseki(2003) whispers: black was certainly better 5 moves ago :<
Suiseiseki(2003) whispers: now white may be awakening
Suiseiseki(2003) whispers: GO!! 27. [Bc4+](#) (0:42)
milpat(1930) whispers: those move in 5 seconds...pff
Ismirdochegal(2141) whispers: bc4 and white is very well in the

milpat(1930) whispers: hope Wil does not enter in NT rythm
Funkmaus(2272) whispers: g5! f5 Rh3 - and here comes the activity
Suiseiseki(2003) whispers: think wil can beat him in blitz? :p
Ismirdochegal(2141) whispers: g5 seems plausible
Nemisis(2113) whispers: Yup. Or similar. Do you think h4 is good
enough? Probably g5 is best.
milpat(1930) whispers: g5 Ba4
Twikki(2067) whispers: Nd4 is probably useful for black 28. [g5](#) (1:24)
Nemisis(2113) whispers: Doesn't that lose a piece?
Funkmaus(2272) whispers: GO!!!!
Nemisis(2113) whispers: Maybe I am blind today. Seems Nd4 Rd3
wins.
Funkmaus(2272) whispers: Wil is alive and kicking
Twikki(2067) whispers: Nd4 Rd3 Bc2+
Suiseiseki(2003) whispers: yes yes :o
Nemisis(2113) whispers: oh right I am blind thanks Twikki.
Suiseiseki(2003) whispers: why did he play Bd1 in 5 sec, i have no
idea~ :p
Nemisis(2113) whispers: Trying to trade down to an inferior
positions.:<-)
Suiseiseki(2003) whispers: now the lsb roles are inverted ~ white's
bishop is clearly superior
milpat(1930) whispers: with 40 min on clock lol
Nemisis(2113) whispers: Possibly doesn't know a bishops power
grows in the endgame when a knights weakens?
milpat(1930) whispers: some peoples tend to think only when they
are in trouble
milpat(1930) whispers: (...which might come :P)
Ismirdochegal(2141) whispers: like me :D
milpat(1930) whispers: yea, i noted u never think ismir ;))
wmahan(2019) whispers: f5 Rh3 Bh5 Be6 with the threat of Bxf5
Suiseiseki(2003) whispers: yes yes :o
Nemisis(2113) whispers: Rh3 seems like a waste of time.
Twikki(2067) whispers: looks like Nd4 only draws
wmahan(2019) whispers: then Nd4 Bxd4 Rxd4 Bxf5 gxf5 Rxh5 Rxf4
Rxh7 I hope is a draw

Twikki(2067) whispers: there are some cheap mates in there, but
easily avoided
Suiseiseki(2003) whispers: well, white can try to push for the win
now~ :<
Suiseiseki(2003) whispers: ..maybe :p
ReyFeroz(2083) whispers: suiseiseki
ReyFeroz(2083) whispers: do you have elo fide?
Nemisis(2113) whispers: I am still learning my advanced endgames,
but according to theory white should have a decent advantage.
Nemisis(2113) whispers: At least compensation for the pawn.
Nemisis(2113) whispers: One comment I heard that surprised me is
some believe a bishop vs a knight in an endgame is like losing a full
exchange for the knight holder in most positons. 28... [Nd4](#) (6:57)
Ismirdochegal(2141) whispers: R+B is cleraly stronger than R+N
Ismirdochegal(2141) whispers: but people tend to exaggerate
Nemisis(2113) whispers: Maybe.:<-)
Twikki(2067) whispers: gf was my main line here
wmahan(2019) whispers: I thought this must be good for me
Nemisis(2113) whispers: I still say white has the advantage and
should play for activity.
wmahan(2019) whispers: oh I see, Rd3 Bc2. missed that
Nemisis(2113) whispers: So did I.:<-)
Nemisis(2113) whispers: But Re3 is still interesting.
Funkmaus(2272) whispers: Rh3 Kg7 Re3 Kf8 Rh3 - i smell repetition
Funkmaus(2272) whispers: or how else face Rh3?
milpat(1930) whispers: gx seems logical, what i miss?
mindlin(2011) whispers: Rh3 seems logical
Nemisis(2113) whispers: naw gx is bad.
milpat(1930) whispers: Rh3 Bf5 wasted of time?
milpat(1930) whispers: Bh5*
Funkmaus(2272) whispers: on Bh5 Rd3 works
Twikki(2067) whispers: Rh3 Kg7 Re3 Nf5
Nemisis(2113) whispers: ya.
Suiseiseki(2003) whispers: but doesn't win a piece :p
wmahan(2019) whispers: I hope I don't get mated somehow after gxf
Bc2 Kh2 Rd1
Nemisis(2113) whispers: Would win a pawn.:<-P
Funkmaus(2272) whispers: but wins a pawn on Nc6
Funkmaus(2272) whispers: ya
Nemisis(2113) whispers: or get back a lost pawn.
wmahan(2019) whispers: sorry that's not a line
Suiseiseki(2003) whispers: well right :p
milpat(1930) whispers: good Wil, take ur time
Suiseiseki(2003) whispers: not sure if i'd take draw as w now
Nemisis(2113) whispers: Well Rh3 Kg7 and Re3 would gain some
time. 29. [gxf6](#) (4:49) [exf6](#) (0:03) 30. [Bb4+](#) (0:42)

Nemisis(2113) whispers: I like it after Rh3 Kg7 Re3 and Kf8. Seems
much more powderful.
Twikki(2067) whispers: Kf8 wasn't forced
Nemisis(2113) whispers: What else be played?
Twikki(2067) whispers: Nf5
Nemisis(2113) whispers: Nf5
Nemisis(2113) whispers: Yeah I still like it better.
Nemisis(2113) whispers: Maybe Re6. 31. [Re3](#) (1:42) [Nf5](#) (0:05)
32. [Ref6](#) (0:42)
Nemisis(2113) whispers: I guess we will find out cause this is
basically the same position.
Suiseiseki(2003) whispers: white's b pair looks crushing
Nemisis(2113) whispers: Bc3 a threat, I still think holding the tension
was better though. More chances for mistake.
Twikki(2067) whispers: b5 Bxb5 Bb3 Re1 doesn't work, so maybe
prepare it with a6
wmahan(2019) whispers: the threat of Bc3 or Be7 is obvious I guess
Nemisis(2113) whispers: I don't think there is enough time with a6.
Twikki(2067) whispers: what am I thinking about? Rd4 is fine
mindlin(2011) whispers: Rd4 looks strong for black
wmahan(2019) whispers: I think I've got compensation for the pawn;

not sure about more 32...[Rd4](#) (4:17)
mindlin(2011) whispers: but the problem is f-pawn is hanging too
Funkmaus(2272) whispers: oh
Twikki(2067) whispers: and where does the bishop go? b3 b5 looks nasty
wmahan(2019) whispers: ok I missed that
Nemisis(2113) whispers: I might try a2
Twikki(2067) whispers: mate threats after Ba4, forces b3... can't be good
wmahan(2019) whispers: that's quite annoying
mindlin(2011) whispers: yes b3 is required I think
fredisblogs(1813) whispers: definately no compensation for the pawn imho
Nemisis(2113) whispers: It was.
Funkmaus(2272) whispers: b3 bc2 kxb Rxc4+ bxc and Nd4+ forks
Suiseiseki(2003) whispers: aah strong move
mindlin(2011) whispers: he has compensation for one pawn just not two lol 33.[Ba2](#) (2:34)
fredisblogs(1813) whispers: is just bad now
Funkmaus(2272) whispers: :(
Nemisis(2113) whispers: I really think gf was a blunder.
wmahan(2019) whispers: Bb4 b3 Bd7, ugh
wmahan(2019) whispers: I'm probably just losing then 33...[Ba4](#) (2:18) 34.[b3](#) (0:12)
Twikki(2067) whispers: white's position looks resignable
Suiseiseki(2003) whispers: darn :<
Nemisis(2113) whispers: You think so?
mindlin(2011) whispers: why didn't he go for b3 before without the Ba2?
fredisblogs(1813) whispers: just about lost
Twikki(2067) whispers: Bd7 R-any Rxf4
Nemisis(2113) whispers: I don't know..
mindlin(2011) whispers: that is one backward bishop now
wmahan(2019) whispers: this is painful
fredisblogs(1813) whispers: the power of the bishop pair
Nemisis(2113) whispers: I have seen positions with stronger players go from 5.00+ to 0.00 in a few moves, in similar positions.
